

Hey Krizna,

I am in Easter Island right now. Today we went to look at statues.

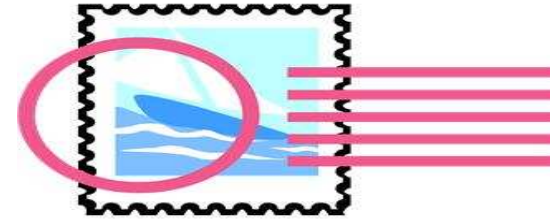

Did you know the statues were made out of volcanic rocks? It's amazing! Can you believe that the eyes of the statues are made out of red lava?

I wonder how the ancient people got all of the statues to the coastline because the statues are as heavy as twenty– seven tonnes! WOW! Did you know that the statues are as tall as thirteen meters? Before I go, I want to tell you that these statues are two thousands year old!

See you real soon,

*Jennily Luu*

P.S. Wish you were here with me!
